

## THE TRANSFORMER AND ELECTRICAL COMPANY LIMITED

TEC is a leading UK manufacturer of quality power transformers and chokes. The company offers a professional range of high grade products including single and three phase, dry or oil immersed transformers, chokes, auto starting transformers, portable power tool safety transformers and rectifier units,

Supplying to a world market, TEC operations include prototype design and development, manufacturing, test, quality control, sales and after-sales service.

With over 50 years of long standing commitment to quality, reliability and customer satisfaction, the TEC organisation now employs over 50 people, operating out of 17,000 square feet of office and manufacturing space.

Offering in house metal working and fabrication facilities, a fully qualified and experienced development team backed by the latest techniques in computer-aided design. TEC prides itself on providing the most efficient and flexible transformer and wound product service available.
